

# 2020 NSW Post-School Destinations and Experiences Survey

#### Destinations of students who completed or left school early in 2019

The NSW Post-School Destinations and Experiences Survey collects information about students' main destination<sup>1</sup> in the year after completing Year 12 or leaving school early. The survey provides information on education pathways, attainments and destinations of young people in NSW and informs policy making related to students' post-school education, training and employment.

In 2020, all students who left school in 2019 before completing Year 12 (known as early school leavers) were invited to complete the survey about their current situation. Among those who finished Year 12, all Aboriginal and Torres Strait Islander students and students who attended Connected Communities schools were invited to complete the survey. A random sample of non-Aboriginal and Torres Strait Islander students who completed Year 12 were also invited to participate. A total of 32,306 Year 12 completers and 18,303 early school leavers were invited to take part in the 2020 survey. Responses were received from 18,865 Year 12 completers and 5,978 early school leavers and are analysed in this report<sup>2</sup>.

#### Year 12 completers

Just over three-fifths (62.1%) of 2019 Year 12 completers were in some form of education or training in 2020. The main post-school destination for this cohort continued to be a Bachelor degree (45.0%). Just over one-quarter (26.9%) were employed (7.8% full-time and 19.1% part-time), while a smaller proportion were looking for work (7.7%), or not in the labour force, education or training (NILFET\*; 3.3%).

#### | Early school leavers

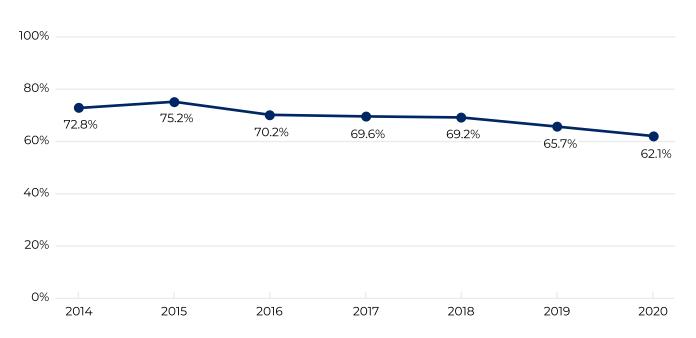

In 2020, the main post-school destinations among 2019 early school leavers were substantially different from Year 12 completers. More than half (51.4%) were undertaking some form of education or training. The most common post-school destination among this cohort was an apprenticeship (27.7%). Just over one-quarter of early school leavers were employed (8.8% full-time and 16.7% part-time), while a smaller proportion were looking for work (17.3%) or NILFET (5.9%).

<sup>\*</sup>Not in the labour force means that a person is not working and not looking for work.

<sup>1</sup> There are ten main school destinations that relate to further education and current employment. This classification system is hierarchical and prioritises education related post-school destinations over participation in employment. As such, it represents a young person's main destination since leaving school.

<sup>2</sup> A detailed outline of the survey method, including eligibility guidelines and the selection process can be found in the technical report.

### In education or training

Just over three-fifths (62.1%) of Year 12 completers were in education or training in 2020. This is fewer than in each year since 2014. There has been a 3.6 percentage point decrease since 2019.

45.0%	<b>5.2</b> %	<b>2.3</b> %	1.0%	<b>4.8</b> % Apprenticeship	<b>3.7</b> %
Bachelor	VET Cert IV+	VET Cert III	VET Cert I-II		Traineeship

down 7.5	down 2.1	up 0.4	down 0.8	down 0.1	down 0.7
percentage	percentage	percentage	percentage	percentage	percentage
points since	points since	points since	points since	points since	points since
2014	2014	2014	2014	2014	2014

Bachelor degrees were the most popular destination among Year 12 completers despite being down 7.5 percentage points since 2014.

#### For those undertaking a bachelor degree or VET certificate

#### What are they studying?

Females were more likely than males to be studying:

- health
- education
- · society and culture.

Males were more likely than females to be studying:

- engineering and related technologies
- information technology
- management and commerce.

The most common study areas by level of course were:

- Bachelor degree Society and culture (22.4%).
- VET certificate IV+ Creative arts (20.2%).
- VET certificate III Education (15.4%).
- VET certificate I-II Engineering and related technologies (14.7%).

21.0% Society and culture	<b>19.7</b> % Health	18.4% Management and commerce
down 2.5	<b>▲</b> up 4.6	<b>▼</b> down 3.7
percentage points since 2014	percentage points since 2014	percentage points since 2014

## For those doing an apprenticeship What types of apprenticeships?

Females were more likely than males to be undertaking an apprenticeship in:

· hairdressing.

Males were more likely than females to be undertaking an apprenticeship as an:

- · electrician
- · bricklayer, carpenter and joiner
- fabrication engineering trades worker.

<b>24.4</b> % Electricians	18.2% Bricklayers, carpenters and joiners	8.9% Fabrication engineering trades workers	
up 8.2 percentage points since 2014	down 4.2 percentage points since 2014	up 7.2 percentage points since 2014	

## For those doing a traineeship What types of traineeships?

Females were more likely than males to be undertaking a traineeship in:

- childcare
- general clerk
- receptionist
- personal carer and assistant.

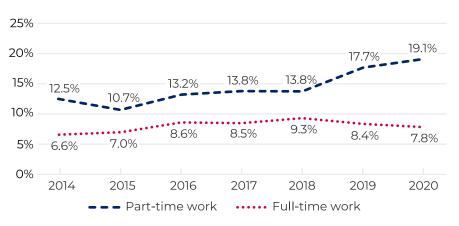

<b>23.9</b> % Childcare	<b>12.6</b> % General clerk	9.5% Sales person or assistant
<b>A</b>	<b>A</b>	▼
up 7.1 percentage points since 2014	up 3.2 percentage points since 2014	down 15.0 percentage points since 2014

#### In employment

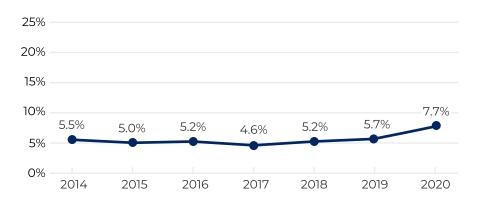

Just over one-quarter (26.9%) of Year 12 completers were employed and not in education in 2020. Participation in full-time and part-time employment has increased since 2014.

<b>7.8</b> % Full-time work	<b>19.1</b> % Part-time work
<b>A</b>	<b>A</b>
up 1.2 percentage points since 2014	up 6.6 percentage points since 2014

#### Not in education, training or employment - looking for work

About one-in-thirteen (7.7%) Year 12 completers were looking for work.

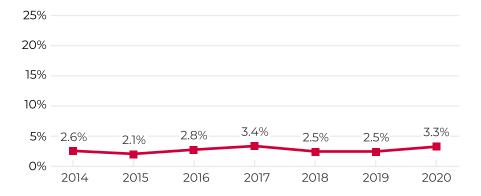

up 2.2 percentage points since 2014

#### Not in education, training or employment – NILFET

The proportion of Year 12 completers who were NILFET has increased since 2019.

## **3.3**% NILFET

up 0.7 percentage points since 2014

#### | For those in employment

#### What jobs are they doing?

Females were more likely than males to be working as:

- community and personal services workers
- sales workers
- · clerical and admin workers.

Males were more likely than females to be working as:

- labourers
- machinery operators and drivers
- · technicians and trades workers.

26.3% Sales workers	25.2% Community and personal service workers	<b>12.7</b> % Labourers
down 6.5	down 2.8	down 2.2
percentage	percentage	percentage
points since	points since	points since
2014	2014	2014

#### For those not in the labour force, education or training

#### Main reason

Females were more likely than males to report:

• looking after a child/children as their main reason for not being in the labour force, education or training.

Males were however more likely than females to report:

- · recreational activities and
- · informal study or training

as their main reason for not being in the labour force, education or training.

<b>37.7</b> % Informal study or training	23.6% Recreation (incl. gap year, nothing)	<b>6.5</b> % Home duties
	▼	<b>A</b>
up 16.7 percentage points since 2014	down 21.9 percentage points since 2014	up 0.6 percentage points since 2014

#### For those who deferred further education

Almost one-sixth (15.2%) of Year 12 completers who were NILFET indicated they were enrolled in a course of study but have deferred it.

Those who were employed deferred further education at a similar rate:

- 23.5% full-time employment.
- 19.2% part-time employment.

Those who were looking for work were less likely to have deferred a course than those who were NILFET (17.7%).

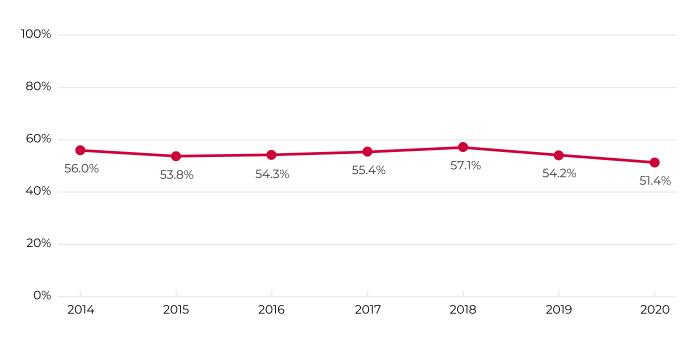

## What are the subgroup differences in destinations?

Apprenticeships continued to be the most popular destination among early school leavers.

#### For those undertaking a bachelor degree or VET certificate

#### What are they studying?

Females were more likely than males to be studying:

- education
- food hospitality
- personal services or health.

Males were more likely than females to be studying:

- information technology
- engineering and related technologies
- architecture and building.

14.8% Creative arts	<b>13.8</b> % Society and culture	<b>11.7</b> % Health
up 5.7 percentage points since 2014	up 1.5 percentage points since 2014	up 4.4 percentage points since 2014

## For those doing an apprenticeship What types of apprenticeships?

Females were more likely than males to be undertaking an apprenticeship in:

• hairdressing.

Males were more likely than females to be undertaking an apprenticeship in:

- bricklaying
- · carpentry and joinery
- automotive electricians and mechanics
- · electricians.

19.6% Bricklaying, carpentry and joinery	14.3% Automotive electricians and mechanics	<b>12.7</b> % Electricians
up 1.1 percentage points since 2014	down 0.7 percentage points since 2014	up 3.4 percentage points since 2014

## For those doing a traineeship What types of traineeships?

Females were more likely than males to be undertaking a traineeship as:

- child carers
- general clerks
- sales assistants and salespersons.

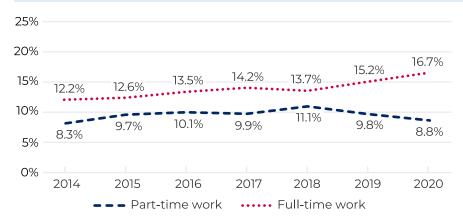

<b>26.4</b> % Childcare	17.3% Sales person or assistant	<b>7.2</b> % General clerk
<b>A</b>	▼	▼
up 11.2 percentage points since 2014	down 7.6 percentage points since 2014	down 0.9 percentage points since 2014

#### In employment

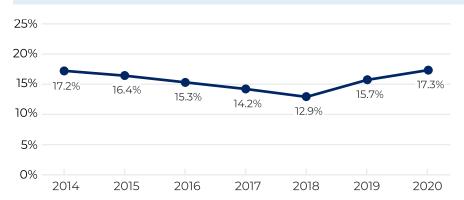

8.8%	<b>16.7</b> %
Full-time	Part-time
work	work
up 0.5 percentage points since 2014	up 4.5 percentage points since 2014

#### Not in education, training or employment - looking for work

Just over one-in-six (17.3%) early school leavers were looking for work, up 0.1 of a percentage point since 2014 and up 1.6 percentage points since 2019.

up 0.1 percentage points since 2014

#### Not in education, training or employment - NILFET

The percentage of 2019 early school leavers who were NILFET is also down since 2014, accounting for about one-in-seventeen (5.9%) early school leavers in 2020.

#### **5.9**% NILFET

down 0.5 percentage points since 2014

#### | For those in employment

#### What jobs are they doing?

Females were more likely than males to be working as:

- community and personal services workers
- sales workers
- clerical and admin workers.

Males were more likely than females to be working as:

- labourers
- technicians and trades workers.

<b>28.7</b> % Labourers	<b>24.8</b> % Sales workers	18.2% Community and personal service workers
up 1.1 percentage points since 2014	down 6.9 percentage points since 2014	up 1.9 percentage points since 2014

#### For those not in the labour force, education or training

#### Main reason

Females were more likely than males to report:

- looking after a children
- unable to work due to illness
- on home duties.

20.9% Recreation (incl. gap year, nothing)	12.1% Illness or unable to work)	11.2% Informal study or training
▼	<b>A</b>	▼
down 7.6 percentage points since 2014	up 3.1 percentage points since 2014	down 4.1 percentage points since 2014

#### For those who deferred further education

One-in-sixteen (6.2%) early school leavers who were NILFET indicated they were enrolled in a course of study but had deferred it.

Varying rates of deferment were found for those in employment or looking for work:

- 3.1% full-time employment
- 6.1% part-time employment
- 7.0% looking for work.

## What are the subgroup differences in destinations?

<sup>4</sup> Parental socio-economic status (SES) is an individual measure of SES derived from students' recollection of their parent(s) main occupation and highest level of education. Further information about its derivation can be found in the technical report.

#### Methodology

This report provides a brief overview of the main findings of the 2020 NSW Post-School Destinations and Experiences Survey. Several points should be kept in mind when considering the findings.

A total of ten post-school destinations are defined from responses to a number of items relating to participation in further education and current employment. This classification system is a hierarchical classification system, which prioritises education related post-school destinations over participation in employment. As such, it represents a young person's main destination since leaving school. A full discussion of the classification system can be found in the technical report.

All data are weighted to match relevant population parameters. Survey weighted multinomial logistic regression analyses have been conducted to assess differences between subgroups and between survey waves using STATA (version 16). Results reported as "different" in the main report or marked with red asterisks in the appendices were statistically significant at p < 0.01. This significance level has been chosen due to the large sample sizes.

In some cases values may differ from the apparent sum of their component elements. This is due to the effects of rounding.

Where appropriate, comparisons have been made to previous waves of this survey. Field of education was coded using Australian Standard Classification of Education (Australian Bureau of Statistics catalogue number 1272.0). Occupation was coded to the Australian and New Zealand Standard Classification of Occupations (Version 1.3, Australian Bureau of Statistics catalogue number 1220.0).

For further information about the survey background and method, please refer to the 2020 technical report.

Table 1
Main post-school destination of Year 12 completers by year (2014-2020)

Traineeship	3.8	4.5	3.0	3.7
Full-time work	8.0	7.8	7.3	7.5
Part-time work	19.7	20.0	17.0*	18.4
Looking for work	9.9	4.9*	4.5*	4.7*
NILFET	4.2	2.1*	2.1*	2.1*

<sup>\*</sup> Indicates result is significantly different to Government sector (p<.01).

Table 9

Main post-school destination in 2020 of early school leavers by school sector

Main destination	Government	Non-gov	Sub-total	
	%	Catholic %	Independent %	%
Base (n): all early school leavers	4,909	552	517	1,069
Bachelor degree	0.9	1.6	3.1*	2.4*
VET Cert IV+	4.8	8.3*	13*	10.8*
VET Cert III	7.4	9.3	8.9	9.1
VET Cert I-II	2.7	1.6	3.0	2.3
Apprenticeship	25.8	41.2*	32.5*	36.6*
Traineeship	6.3	8.7	5.4	7.0
Full-time work	9.1	7.5	6.7	7.1
Part-time work	17.1	13.5	15.6	14.6
Looking for work	19.6	6.1*	6.1*	6.1*
NILFET	6.3	2.2*	5.7	4.0

<sup>\*</sup> Indicates result is significantly different to Government sector (p<.01).

Table 10

Main post-school destination in 2020 of Year 12 completers by Aboriginal and Torres Strait Islander status

Main destination	Aboriginal and To	rres Strait Islander
	Yes %	No %
Base (n): all Year 12 completers	1,122	17,743
Bachelor degree	21.1	45.9*
VET Cert IV+	4.7	5.2
VET Cert III	6.1	2.2*
VET Cert I-II	1.3	1.0
Apprenticeship	6.6	4.7
Traineeship	7.2	3.6*
Full-time work	10.1	7.7
Part-time work	22.5	19.0*
Looking for work	15.5	7.4*
NILFET	5.0	3.3

<sup>\*</sup> Indicates a significant difference (p<.01).

Table 11

Main post-school destination in 2020 of early school leavers by Aboriginal and Torres Strait Islander status

Main destination	Aboriginal and To	rres Strait Islander
	Yes %	No %
Base (n): all early school leavers	694	5,284
Bachelor degree	0.3	1.3*
VET Cert IV+	3.3	6.1*
VET Cert III	6.7	7.8
VET Cert I-II	2.9	2.6
Apprenticeship	17.8	29.1*
Traineeship	6.8	6.4
Full-time work	8.4	8.8
Part-time work	17.3	16.6
Looking for work	28.8	15.6*
NILFET	7.8	5.7

<sup>\*</sup> Indicates a significant difference (p<.01).

Table 12

Main post-school destination in 2020 of Year 12 completers by language background other than English status

Main destination	Language background other than English				
	Yes %	No %			
Base (n): all Year 12 completers	5,271	13,594			
Bachelor degree	56.8	40.1*			
VET Cert IV+	6.3	4.8*			
VET Cert III	1.6	2.7*			
VET Cert I-II	0.8	1.1			
Apprenticeship	2.6	5.7*			
Traineeship	1.9	4.5*			
Full-time work	3.5	9.6*			
Part-time work	13.3	21.5*			
Looking for work	9.1	7.1*			
NILFET	4.3	2.9*			

<sup>\*</sup> Indicates a significant difference (p<.01).

#### Table 13

Main post-school destination in 2020 of early school leavers by language background other than English status

Main destination	Language background other than English				
	Yes %	No %			
Base (n): all early school leavers	803	5,175			
Bachelor degree	1.3	1.1			
VET Cert IV+	8.1	5.4			
VET Cert III	8.4	7.6			
VET Cert I-II	1.2	2.9*			
Apprenticeship	25.7	28.0			
Traineeship	4.5	6.7*			
Full-time work	7.7	9.0			
Part-time work	14.7	17.0			
Looking for work	19.6	16.9			
NILFET	9.0	5.5*			

<sup>\*</sup> Indicates a significant difference (p<.01).

Table 14

Main post-school destination in 2020 of Year 12 completers by NSW region (SA4 cluster)

NILFET	5.9	10.3	6.1	6.4	5.4	6.5	6.3	5.1	7.1	4.8	5.4	4.2

<sup>\*\*</sup> Indicates result is significantly different to the average of all other sub-regions (p<.01).

Table 16

Main post-school destination in 2020 of early school leavers by minimum school leaving age

Main destination	Aged under 17 years %	Aged 17 years and over %
Base (n): all early school leavers	2,685	3,291
Bachelor degree	0.6	1.5*
VET Cert IV+	6.2	5.5
VET Cert III	8.2	7.4
VET Cert I-II	3.1	2.3
Apprenticeship	36.4	21.2*
Traineeship	7.0	6.0
Full-time work	7.6	9.6*
Part-time work	12.3	19.9*
Looking for work	14.1	19.6*
NILFET	4.6	7.0*

<sup>\*</sup> Indicates a significant difference (p<.01).

#### Acknowledgements

The 2020 NSW Post-School Destinations and Experiences Survey was delivered by the Centre for Education Statistics and Evaluation in partnership with the Social Research Centre, a wholly owned subsidiary of the Australian National University.

The survey is supported by the NSW Education Standards Authority (NESA), Catholic Schools NSW and the Association of Independent Schools NSW. We thank them for their assistance and input into the research.

We also thank the numerous young people who gave their time and shared their experiences.
