

Crash

Words and music by Barbara Stacey

1. Well I was driving my new car minding my own business.
I was driving my new car along the road.
Well I was driving my new car minding my own business when along came a truckie with a load.
We had a crash, oh dash!
I'm glad I had my seat belt on!
2. Well I was driving my new car way out in the country
I was driving my new car out in the bush.
Well I was driving my new car way out in the country when a 'roo came and gave my car a push.
We had a crash, oh dash!
I'm glad I had my seat belt on!
3. Well I was driving my new car north along the freeway
I was driving my new car without a fuss.
Well I was driving my new car north along the freeway when our car was nudged quite firmly by a bus!
We had a crash, oh dash!
I'm glad I had my seat belt on!
