paragraphs**

TEEEEC paragraphs

We use a TEEEC scaffold for writing paragraphs to enhance our writing, and make it sound more sophisticated. It is important to give all the right information in a paragraph, in the correct order. Follow this scaffold for a successful paragraph:

| Letter | Type | Description |
|----------|-----------------------|---|
| T | Topic Sentence | Your first sentence introduces the TOPIC you will be writing about in a paragraph. |
| E | Expand | The second sentence EXPANDS upon the topic, giving more information. |
| E | Example | This sentence provides an EXAMPLE of the topic you are writing about in this paragraph. |
| E | Explain | This sentence EXPLAINS what you are writing about. When you explain something you may use terms such as: ... this may result in; ... as a consequence; ... therefore; |
| C | Connect | This last sentence CONNECTS back to the topic introduced in the first sentence. |

Have a go at writing a TEEEC paragraph as a class or by yourself. Remember not to leave any sentence out. Highlight them at the end in the correlating colours to make sure you have them all.
