Read the following scenario and answer the questions below.

You are close friends with Julia who is in your PE class. Julia has had an argument recently with Jackie who you are also friends with. Julia constantly tries to convince you that Jackie is horrible and you should not be her friend. Jackie tries to tell you that she wants to be friends with Julia again but Julia does not want to listen.

One day in PE, your class is playing a game of soccer and you and Julia are placed on the same team. Jackie is placed on the opposing team. When Jackie gets the ball and starts dribbling, Julia runs towards her and barges her over, clearly aiming to hurt Jackie. Jackie is upset and has tears in her eyes, clearly she has been hurt. Julia laughs in her face and walks away, the teacher has blown the whistle to stop the game for a break.

1. Explain how you would respond to that situation as both Julia and Jackie's friend.

I would talk to the teacher about the situation and ask her to have a talk with the pair, so that they can sort out their differences again and be friends. I would ask her not to punish Julia, because if Jackie wants to be friends again, she wouldn't want Julia to be hurt.

2. Explain how this type of situation may be avoided in the future.

By it being reported to the teacher as soon as the fight starts, so that it would be easier for them to become friends again so the situation may never occur.

3. Would implementing a code of conduct help prevent this type of situation? Explain your answer.

Yes, because then Julia would never be able to hurt Jackie.

1. Explain how you would respond to that situation as both Julia and Jackie's friend.

I would run over to Jackie and help her up and check if she was ok. Then I would walk over to Julia and ask her why she would do that. Then I would try to convince her that she should make up with Jackie. If she doesn't listen I would tell her that I couldn't be friends with someone who was deliberately hurting someone else.

2. Explain how this type of situation may be avoided in the future.

Maybe if I tried to convince Julia earlier then Jackie would not have gotten hurt, or Jackie should have walked up to Julia and ~~asked~~^{made} her listen.

3. Would implementing a code of conduct help prevent this type of situation? Explain your answer.

I don't think it would because we all know the rules and a code of conduct is just a more official way of making sure everyone knows them.

Think of another situation where you have been involved in conflict. Answer the following questions.

4. Explain how you dealt with conflict during that situation.

I got on my friend's messages and wrote something along the lines of "Why are you being so mean? It's not nice and you should stop or the principle going to get involved"

5. What was effective about the way you dealt with it?

Nothing really, although it did make her realize that she was not going to be able to bully her without friends trying to stop her

6. List some ways you could avoid conflict like this in the future.

We should just talk it out and we should just not get in fights in the first place.

Situation

Someone was being really mean to my friend and calling her mean names, being mean on social media and deliberately running into her in the hallway.

1. Explain how you would respond to that situation as both Julia and Jackie's friend.

I would respond by helping Jackie up and making sure that she is ok. I would then ~~then~~^{get} Julia ~~that she~~ and Jackie together to talk to each other. Hopefully this would stop the conflict against each other.

2. Explain how this type of situation may be avoided in the future.

This would probably get avoided if they talked to each other early and if they had a code of conduct, (so you would have to act a certain way.) ✓

3. Would implementing a code of conduct help prevent this type of situation? Explain your answer.

Yes. By creating a code of conduct people would ~~not~~ act a certain way. ✓

1. Explain how you would respond to that situation as both Julia and Jackie's friend.

I would tell both of them to apologize to each other so that they could be friends again. I wouldn't listen to Julia because I would still want to be Jackie's friend.

2. Explain how this type of situation may be avoided in the future.

It could be avoided by not making a big deal out of the argument and just not trying to make the situation any worse.

3. Would implementing a code of conduct help prevent this type of situation? Explain your answer.

It would because then ~~the~~ everyone can get along without having to be in any of these situations.

Sport Safety and Conflict Resolution

Think of another situation where you have been involved in conflict. Answer the following questions.

4. Explain how you dealt with conflict during that situation.

I dealt with it by trying to apologize to stop the fight, but the other person didn't want to stop fighting. This is how the fight got worse.

5. What was effective about the way you dealt with it?

It was a little bit effective because she didn't try to snap at me that much, but she still wouldn't stop fighting.

6. List some ways you could avoid conflict like this in the future.

Just ignore the person your fighting with and stay out of any conflict with them.

Jackie tries to tell you that she wants to be friends with Julia again but Julia does not want to listen.

One day in PE, your class is playing a game of soccer and you and Julia are placed on the same team. Jackie is placed on the opposing team. When Jackie gets the ball and starts dribbling, Julia runs towards her and barges her over, clearly aiming to hurt Jackie. Jackie is upset and has tears in her eyes, clearly she has been hurt. Julia laughs in her face and walks away, the teacher has blown the whistle to stop the game for a break.

1. Explain how you would respond to that situation as both Julia and Jackie's friend.

Being both of their friends I have to consider both sides but not encourage Julia to do this sort of stuff to Jackie. I would tell Julia to try and apologise for her behaviour towards Jackie ✓

2. Explain how this type of situation may be avoided in the future.

It can be avoided by them not saying mean things and not using violence against each other. I think if they both don't want to be friends they should keep their distance ✓

3. Would implementing a code of conduct help prevent this type of situation? Explain your answer.

I think it could work but I don't think it is a strong friendship because if it was they could have fixed things instead of demanding rules. ✓

Think of another situation where you have been involved in conflict. Answer the following questions.

4. Explain how you dealt with conflict during that situation.

I wouldn't believe one side and not the other
~~I~~ as there friend I tried to resolve the
argument and play fairly. ~~and I was friends~~
~~didn't resolve it they~~

5. What was effective about the way you dealt with it?

The effect was that being there friend I tried
to resolve it and tell them that they were
friends and that made them realise that they
had to be friends again.

6. List some ways you could avoid conflict like this in the future.

To not get involved and try to be a good
friend and let them sort it out you can
help as a friend.

1. Explain how you would respond to that situation as both Julia and Jackie's friend.

Try to make them become friends again or make them be nice to each other by having them talk about it or getting a teacher.

2. Explain how this type of situation may be avoided in the future.

Making sure people don't fight and stay friends and try to stop it because it escalates.

3. Would implementing a code of conduct help prevent this type of situation? Explain your answer.

yes because it would make julia understand she can't do that

1. Explain how you would respond to that situation as both Julia and Jackie's friend.

I would say to Julia that it wasn't nice to do that, and that Jackie didn't ~~really~~ do anything to hurt ^{Julia, and} her, ^{also} why would Julia do such a thing.

2. Explain how this type of situation may be avoided in the future.

it could be avoided if:
 - Julia had just listened to what Jackie had to say.
 - If they could just forget about that little argument and become friends again.
 - They could have a sit down and talk about what happened.

3. Would implementing a code of conduct help prevent this type of situation? Explain your answer.

Implementing a code of conduct would help prevent this argument because Julia would have to obey the code of conduct leading them to respect that the little argument was over and ~~to~~ to not have any physical contact with each other.

1. Explain how you would respond to that situation as both Julia and Jackie's friend.

I would be on Jackie's side since she was the one who got hurt during the game and Julia was bullying her by laughing in her face and walking away in before the game. Julia was commanding that I shouldn't be friends with Jackie and Jackie was asking if we could all be friends again.

2. Explain how this type of situation may be avoided in the future.

You should talk about a conflict before a game and not try to solve it during a game.

3. Would implementing a code of conduct help prevent this type of situation? Explain your answer.

~~That goes so~~ Yes so that there are no more fights and injuries on the field.

4. Explain how you dealt with conflict during that situation.

We all changed teams so no of us were together.

5. What was effective about the way you dealt with it?

Yes then because no one complains about not being with friends.

6. List some ways you could avoid conflict like this in the future.

When you are working on a school project and you can't pick your groups.

1. Explain how you would respond to that situation as both Julia and Jackie's friend.

Since Julia & Jackie ^{were} ~~are~~ both friends, it wouldn't be too hard to resolve. If Julia and Jackie were good friends, they wouldn't be such a horrible person. That leads me to think that Jackie forgave Julia and wants to be friends with her but Julia hates Jackie & doesn't want to be friends with Julia.

2. Explain how this type of situation may be avoided in the future.

If the code of conduct was in place, Julie wouldn't have hurt Jackie, but also putting them on the same team might've helped.

3. Would implementing a code of conduct help prevent this type of situation? Explain your answer.

Yes, it would. Implementing the code of conduct would have stopped Julia from resorting to violence and even if she did, Julia would've been punished.
